Reasons for Allowance

The following is an examiner's statement of reasons for allowance: No reference was found anticipating or a combination of references found making obvious an integrated circuit having an internal test circuit for testing a plurality of internal voltages of the integrated circuit wherein the internal test circuit selects one of the internal voltages in accord with a selection signal, compares a measurement voltage corresponding to the selected internal voltage with an externally provided reference voltage, stores the output of the comparison and provide data representative of the comparison. Applicants have argued on page 10 of their Amendment of September 1, 2005 that the "internal voltages" of the claims are power-level voltages not signal-level voltages.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Examiner's Comments

Claims 7-13 and 23-35 are allowed.

Any inquiry concerning this communication should be directed to Ernest F. Karlsen at telephone number 571-272-1961.
